

Health, Safety & Environmental Policy

At Bentley's Building Supplies, the welfare of our employees, customers, visitors and the general public is our first priority. We believe that all accidents are preventable through utilising an approach that is based on continual improvement, learning and consultation.

Bentley's Building Supplies Will:

- Develop, implement and maintain our health, safety and environmental management systems with a focus on continual improvement.
- Provide the required tools, training and equipment in order to achieve a safe working environment across all aspects of our company's operations.
- Encourage and facilitate the appropriate training of our employees to promote career development and increase the technical capacity of the business.
- Comply with all relevant health and safety legislation, Standards, Codes Of Practice and all other health, safety and environmental requirements in order to achieve best practice whilst ensuring all staff are provided with information, instruction and training to be able to comply with those requirements.
- Give certainty that our goods and services will meet the agreed expectations of all customers.
- Demonstrate that our company's operations take into consideration the health, safety and welfare of others.
- Ensure that we are protecting and maintaining the environment in which we work.
- Promote health, safety and environmental awareness to create a positive culture throughout the company.
- Train employees to safely and competently carry out their tasks.
- Minimise our environmental footprint, through a combination of controls, rehabilitation and offsets.
- Continuously improve our practices and performance through regular and effective management system reviews with the aim of eliminating work related injury and illness.

Employees:

- Have a duty to take care of their health and safety and that of others.
- Must comply with all health, safety and environmental policies and procedures.
- Must inform the business owners of dangers, accidents and near misses occurring at the workplace.

Visitors & customers:

- Must not put themselves or any of our employees at risk.
- Must abide by our health safety and environmental policies and procedures.

We will strive to embrace this policy by creating a team environment of high quality individuals who are committed to our company's Health, Safety & Environmental policies and procedures.
